Our little girl who had three weeks old broken arm, we tried the prescription from several good doctors, but without any special benefit. We tried \$1.50, and by the time one bottle was gone, her hand began to heal, and by the time she had taken six bottles, the complete cure was made. She is a full and happy child, and is a robust healthy child. I feel it but my duty to make this statement. — H. H. Hill, Md.
